2018 Insight Into Woodworking classes.

The *Insight* program provides an introductory level of information for beginning and intermediate woodworkers. Instructors lecture and demonstrate basic woodworking tools and techniques. ***These classes will NOT provide hands-on experience.*** The *Insight Into Woodworking* series of classes are offered for \$125 per person.

Classes are currently scheduled to begin March 3rd and run through May 1st. Each session is 2-3 hours in duration and is conducted at the instructor's shop in the Rogue Valley on Tuesday evenings (mostly) from 6:30-9:00 PM. In some cases, attendees may be asked to attend class on a Saturday morning or Wednesday evening depending on instructor availability. The final schedule will be posted on our website by mid February.

The classes offer you the opportunity to interact with professional woodworkers, see their shops, setups, works-in-progress, and learn the tricks of the trade. *The Insight* program is also a great way to meet fellow local woodworkers for association and guidance.

Insight Into Woodworking: *(Class offerings may change depending on instructor availability.)*

- ***Setting up Shop:*** This session will cover basic shop setup. It will also provide you an opportunity to meet the instructors, review class schedule and voice your needs.
