

Insight Into Woodworking Classes Registration

The *Insight* program provides an introductory level of information for beginning and intermediate woodworkers. Instructors lecture and demonstrate basic woodworking tools and techniques. ***These classes will NOT provide hands-on experience.*** The *Insight Into Woodworking* series of classes are offered for \$150 per person. A 'hardship', 2nd person in the same family, or a youth discount can be requested and would be determined by our coordinator.

Classes are scheduled to begin in early April and run through May. Each 2-1/2 hour session is conducted at various instructors' shops located around the Rogue Valley. The classes are held on Tuesday evenings from 6:30-9:00pm and also (usually) on Saturday mornings from 10:00am -12:30. The final schedule for each year is usually posted on our website by mid-March. Detailed class schedule and locations will be sent to registered students before the first class.

The classes offer you the opportunity to interact with professional woodworkers, see their shops, setups, works-in-progress, and learn the tricks of the trade. *The Insight* program is also a great way to meet fellow local woodworkers for association and guidance.

Common Insight Into Woodworking Topics: (*Class offerings will change yearly depending on instructor availability.*) **To enroll in individual classes write the number(s) by the asterisk below.**

- ***Setting up Shop:*** This session will cover basic shop tools and lay-out, as well as introducing class format, teachers and student backgrounds..
